Mubarek Adem

Full stack Developer

+251-918007237 mubarekadem001@gmail.com https://mubarek.vercel.app/ https://www.linkedin.com/in/mubarek-adem/ Addis Ababa, Ethiopia

Summary

Passionate and detail-oriented full-stack developer with extensive experience in building dynamic, user-centric web applications and interactive frontends using React and Next.js. With intermediate knowledge of Flutter, I bring versatility to mobile app development, enabling cross-platform solutions.

Proficient in JavaScript, TypeScript, Node.js, MySQL, and MongoDB, I excel in creating seamless user experiences backed by robust, scalable backend architectures. Experienced in working with tools like Git. I thrive in Agile environments where problem-solving, collaboration, and innovation are key.

I am currently completing a bachelor's degree in Software Engineering at Bahir Dar Science and Technology University, equipping me with a strong theoretical foundation to complement my practical expertise. With a proven track record of delivering impactful solutions, I am committed to driving excellence in every project I undertake.
